## Holidays Homework

Directions: Pick one of the holidays you learned about in any of the different seasons. Try to choose a holiday that you did not know much about before looking at the Holidays webpage. Once you've decided which holiday you want to use, create a Card for that holiday. Be creative and make sure to illustrate the season and pictures that represent that holiday. Be sure to include a greeting on the inside of the card. On the back of the card give some important information about the holiday again making sure to note what season that holiday is in. Brainstorm ideas below before creating a final copy on card paper.

Front of card

**Inside Greeting**

**Back of card (facts about holiday)**
